

THE DEMING GRAPHIC.

ISSUED EVERY WEDNESDAY - - - - - TWO DOLLARS PER ANNUM

N. S. ROSE, EDITOR AND PROPRIETOR.

THIS CITY IS assured of the best business in its history this fall.

THE NEW POPE says he is pleased with the Americans, and the Americans can return the compliment.

AN EXCHANGE says: "There is always a crowd in the college of experience; the trouble is that so few graduate."

THE MACHINE politicians are doing all they can against the appointment of Frank W. Clancy to the bench of the Fifth district. He could have no better recommendation.

IT WILL COST the people of this region two or three hundred dollars to send a creditable exhibit to the territorial fair this fall while the loss to the community by not sending one will be more than that many thousand dollars. Will it pay to send one?

IT IS A far cry from Hudson Bay to Buenos Ayres, but the Oklahoma men who plan a railroad connecting these points, should at least have credit for the power to dream big dreams. A direct line of railroad from the Atlantic to the Pacific was once a dream.

IN THE appointment of Gen. Luke E. Wright, governor general of the Philippines President Roosevelt has again evidenced his disregard of political preferment and selected the man he believed to be worthy of the trust. Teddie believes in doing "the greatest good to the greatest number" even if it does break over party lines and offend office seeking politicians.

THOUSANDS of dollars are sent out of this town annually for brick and then people often have to wait for weeks when in the midst of the erection of a house because they cannot get the brick. We have everything necessary for making the finest pressed brick except the factory and the man to run it. A good opening for some good man who is a brick maker.

QUITE A number of society entertainments at Newport have been abandoned on account of the recent slump of stocks on the Wall Street Market. Yet times were never better in the great west. In former years there were many instances where the farmers of the west did not entertain when the gamblers on Wall Street were on the flood tide of prosperity. It is a poor rule that wont work both ways.

NOTWITHSTANDING the fact that the El Paso and other papers are deriding the idea of the construction of the Alamogordo Deming railroad the company are going right ahead with their work and the time is near when the construction of the road will begin. When railroad builders see that it will be a paying proposition to build a road they generally build it whether the knockers of some neighboring town approve of it or not.

THE STATEMENT, a monthly journal published by the mutual Life Insurance Company of New York, gives a very nice write up of Deming in connection with its statement of the work of J. I. Cox, district superintendent for this part of New Mexico, and Field and son local agents for this place. It tells of the climate, water, natural and social advantages in a way that should be a beneficial advertisement for our town.

THE EDITOR of the Albuquerque Industrial Advertiser alludes to the Sunday closing law as "that freak called the New Mexico Sunday law" and intimates that he would not favor any attempt to enforce the law. Evidently Jack has been asleep and does not know that public sentiment has changed in New Mexico during the past twenty years and that the people are in favor of enforcing the law now; But such is the case. The 'wild and woolly' is a thing of the past in New Mexico.

THE GOVERNMENT will spend \$100,000 for building for the Indian service, in Farmington during the coming year. These buildings will be used as industrial training schools for the Navajo Indians. In addition several thousands of dollars will be expended in building irrigation ditches through the reservation, bringing under cultivation thousands of acres of rich farming land. The Navajoes generally are industrious. The school of Farmington should result in much good.

THE FRUIT crop of the Pecos valley is said to be less than half what it was last year, and it is much the same in most of the eastern part of the territory, while the Mimbres valley never had a greater abundance of the finest of fruits than it has this year. No where in the United States can the farmer feel more certain of reaping good rewards for his labor than here in Grant and Luna counties.

The Most for Your Money.

That is what you want.
That is what you get if you take the Rock Island.

It is the shortest of all lines from Southern Arizona to Kansas City and Chicago, the only line that takes you through without change of cars.

Ask nearest Southern Pacific ticket office for full information, or write
